The Human Life Series of Handy Notebooks is a compendium of every known fact about the BEFORELIFE and every known fact about the AFTERLIFE.

Plus each book in the series has nearly 200 blank pages for you to jot down random thoughts.

The Human Life Series of Handy Notebooks is packed with warmth, wit and gravitas, all rolled up into bite-sized morsels of and .

Actually, "packed" is a massive exaggeration. Because in addition to just over a thousand words of questionable wisdom and homespun humanist philosophy, there are nearly 200 blank pages for you to express your creativity in an exploration of self-help or a journal of personal discovery.

"Warmth, wit and gravitas" is also somewhat hyperbolic and should be taken with a hefty pinch of salt.

The above claim regarding every known fact about the BEFORELIFE and the AFTERLIFE being contained in The Human Life Series of Handy Notebooks cannot be made about LIFE. We humans know way too much about life to be able to squeeze it all into one book.
